# SKYBURST THE FIREWORK CO.

## FIREWORKS WITH PASSION

### Fireworks for every occasion

Skyburst has many years experience, whatever your event, whatever your budget, we are always great value. We fire throughout the year with a team of over 200 firers stationed across the UK – literally from Lands End to the Shetland Isles. We run specialist teams for Corporate Events, Weddings, Pyro-Musicals, Special Celebrations, as well as the big annual occasions of November 5th and New Year. We can even lower the noise with quieter fireworks for events that need to be spectacular without the loud explosions.

We provide a fully supported Mail Order service for DIY firework packs, these are also available within our shops together with an array of individual fireworks.

### Mixing it with music

We regularly fire for large musical events, both live and recorded, choreographing our fireworks to reflect the pace and intensity of the music through our sophisticated timed firing systems.

### Partnership all the way

From the moment we receive an enquiry, through to the last firework being fired, we work closely with and support all our clients throughout. We treasure the fact that our reputation has grown out of the relationships we have, knowing that this will always be critical to our success, and that our best promotion is achieved through the services we deliver.

Our expertise and enthusiasm is free, you only pay for the fireworks.

# SKYBURST THE FIREWORK CO.

## DISCOVER THE DIFFERENCE

### FIRING SUPERBLY IMAGINATIVE PYROTECHNIC SHOWS SINCE 1982

Skyburst The Firework Co. provides more than 300 professional displays every year for local authorities, leisure groups, charity fund raisers and wedding organisers.

We are one of the UK's leading Firework Display Companies.

Call 0800 0744 636 to discuss your event and we will help you choose the best effects, the best excitement and the best value.

Guaranteed creativity, value, and experience delivering top quality entertainment.

Firing from barges, parks, and rooftop sites with the capacity to thrill audiences from 50 to 50,000.

### WHY CHOOSE US?

- Fully licensed storage and fusing facilities
- Our own spectacular range of tried and tested pyrotechnics
- Active members of the British Pyrotechnics Association
- Firers trained to the highest national standards
- Respected throughout the industry, often acting as specialist advisors to authorities
- Site safety inspections and fully comprehensive risk assessment provided
- Full public liability insurance cover to £10 million

"My task of creating a glittering finale could only be achieved with your fireworks. Thanks for providing professionalism and terrific value for money."

# PYRO-MUSICALS FIREWORKS WITH MUSIC

## THE UK'S LEADER IN FIRING FIREWORKS TO ALL TYPES OF MUSIC

We offer two levels of musical accompaniment with costs built into the overall budget and will produce a suitable music selection on cd if required. We continually update and increase the selection of musical show options available but regular fire to themes both modern and classical.

### TIMED TO THE MUSICAL SELECTION

Effects are timed to peaks and moods throughout the show. Design and execution requires a high degree of preparation and will normally involve electrical ignition.

During our busy November season we select music tracks from current film themes, pop music, classical and enduring favourites to make up a topical selection on CD. Alternatively, we can take your ideas for a theme and turn them into a music programme.

### FULLY CHOREOGRAPHED

This is suitable for higher budget and short duration shows with live concerts or recorded music and will involve meticulous preparation for electrical firing.

### LIVE MUSIC

In planning a live outdoor concert we will ensure careful co-ordination beforehand with the musical director or conductor and we may ask for a rehearsal CD and score in order to time and design the show. All firework effects are specially chosen and matched to the programme.

On site we will need co-operation from sound engineers to provide sound to the firing point and, with a live

concert, the supervisor will normally read the score whilst initiating display sequences for spot-on timing!

### FIREWORK CONTENT AND VALUE

We pride ourselves on producing displays with an exceptionally high material content, giving you terrific value for money. Our material is bought from factories all over Europe and the far east and through direct import we obtain the best deals in terms of quality and price, allowing us to add much more to our shows than many competitors.

### COMPLETE SERVICE

Our professionally fired displays are provided as a complete service, including site visit, risk assessment and safety plan-all fireworks, equipment and expenses, with cover under our £10 million public liability insurance.

"The synchronisation of music and fireworks was astounding!"

**DISPLAYS TO AMAZE FROM SKYBURST THE FIREWORK CO**  
**CALL THE TEAM ON 0800 0744636**

# **PROFESSIONALLY PREPARED AND FIRED DESIGNER DISPLAYS TO AMAZE**

**EXPECT A DAZZLING RANGE OF SPECTACULAR FIREWORK DISPLAYS PACKED  
WITH EXCITEMENT, THRILLS AND SURPRISES.**

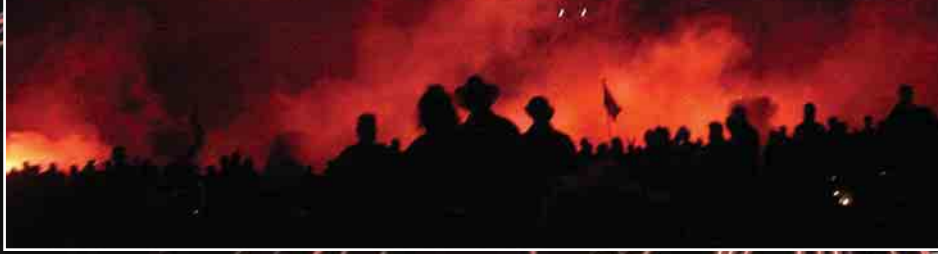

Skyburst will create a unique pyrotechnic event incorporating music, lasers, lighting and special effects if you desire. Imaginatively using natural features we will employ the best firework effects from an audience perspective.

Describe to us your event plans and what you are hoping to achieve. We will take your ideas from concept to completion and design a show specifically for your audience, theme and limitations of the site.

Our designs cater for outdoor classical and pop concerts, commercial product launch events, major national celebrations and any other special occasion.

# SITE SAFETY AND PLANNING

## PLANNING FOR SAFETY AND ENTERTAINMENT IS THE KEY TO A GREAT SHOW!

We work hard to comply with all regulations and our crews are rigorously trained in safety procedures for transport, storage and preparation of fireworks. Site safety must always be the first consideration when planning a display. Whilst catering for unusual sites, our typical requirements and safety distances have been calculated under agreement from industry representatives. We will normally need a minimum of 50 metres from firing site to spectator area, but the likelihood of strong wind conditions may increase our minimum planning distances.

**PUBLIC EVENTS** - For public events, organisers will need to provide stewards. It is recommended that you have initial 2 stewards and then 1 steward for every 100 people thereafter. You will also need to provide barriers, parking, PA system and other security measures. There must also be a suitable fallout area behind the firing site (about the size of a football pitch for smaller displays but increasing with the size of the show). This area should be kept clear of people, cars or inflammable items as debris from exploding fireworks could cause damage.

**THE FIRING SITE** - The display firing site for smaller displays must be 10 metres by 10 metres on either soft or hard ground, with no overhanging tree or overhead cables, but we need more space for larger displays.

**TIMING THE SHOW** - It is usually dark enough about 30 minutes after sunset, but please consider local residents. In general no fireworks may be fired before 07.00 and 23.00 except on 4 days of the year, the first day of the Chinese new year, the day following Diwali and new years day until 01.00 and until 00.00 on November 5th. We can advise on sunset times for any day of the year.

**THE WEATHER** - All effects are waterproofed during preparation and rain should not present a firing problem. Easy vehicle access to the firing site is a great help to our crew.

**FIRING CREWS** - Our firing crews are thoroughly trained and experienced. Teams are based in most parts of the country.

"Any qualms I had about safety were quickly dispelled by all your comprehensive help and advice. Your planning really made the event."

# PACKAGE DISPLAYS FOR WEDDINGS AND OTHER EVENTS

★ ★ ★ ★ ★  
**ALL OF OUR SPECTACULAR FIREWORK SHOWS ARE GUARANTEED TO BREAK THE SCALE ON THE "WOW" FACTOR GRAPH.**

This range of dazzling displays is available nationwide and will provide a stunning finale to your special event.

Designed as an affordable option for weddings, parties and corporate events, they are also popular for carnivals, regattas and even November 5th!

## HIGH IMPACT SHOWS

Packed with exciting aerial effects, these shows are short on duration but high on impact and intensity—the main ingredients of a successful display.

If you want to make a spectacular statement at the end of your event these are the shows to choose. Featuring rapid-fire star barrages and glittering comets up to 100 feet, with high altitude shell and rocket bursts up to 500 feet above, these shows progress through breathtaking sequences of low, medium and high, with a superb variety of noise and visual effects, culminating in a sky-filling finale.

## BUDGET

There will be a close link between how much you spend and the score on the "ooh, ahh" scale. However, our professional packages are all designed to give exceptional value at an all-inclusive price: fireworks, firing team, equipment, delivery, normal expenses, VAT and cover under our £10 million public liability insurance.

## A PERSONAL TOUCH

You can personalise any display with the addition of a "lancework" fire written message. 'GOOD LUCK', 'GOOD NIGHT', simple pictures and initials linked with horse shoes or hearts are popular.

## QUIET DISPLAYS - "SHHH!"

At some regular venues there could be a noise issue for neighbours, pets or livestock, particularly late at night. We regularly deliver the answer with our low noise option display packages.

Of course there is no such thing as a 'silent' firework display, but these shows are designed with a full range of effects, especially imported and selected for their low noise value. With soft break rockets, shimmering stars, dancing flower effects and cascading fountains, you can enjoy these enchanting choreographed displays without concerns about noise.

"NOW THERE ARE NO COMPLAINTS ABOUT LATE NIGHT NOISE" - [Wedding Venue](#)

**YOUR FIRST STEP TO MAKING YOUR OCCASION GO WITH A BANG, CALL US ON 0800 0744 636**

At Skyburst, we are committed to providing the best, all inclusive, value for money displays in the U.K. As major importers we are fully licensed and insured. We have a large compliment of professional and qualified "firers" with nationwide coverage.

## PROFESSIONAL WEDDING PACKAGES

All our displays are individually designed and venue sensitive, with full risk assessments and site surveys completed in advance.

Our displays are organised to gain maximum effect from the budget available. A wide variety of effects are used to ensure a constant succession of aerial activity.

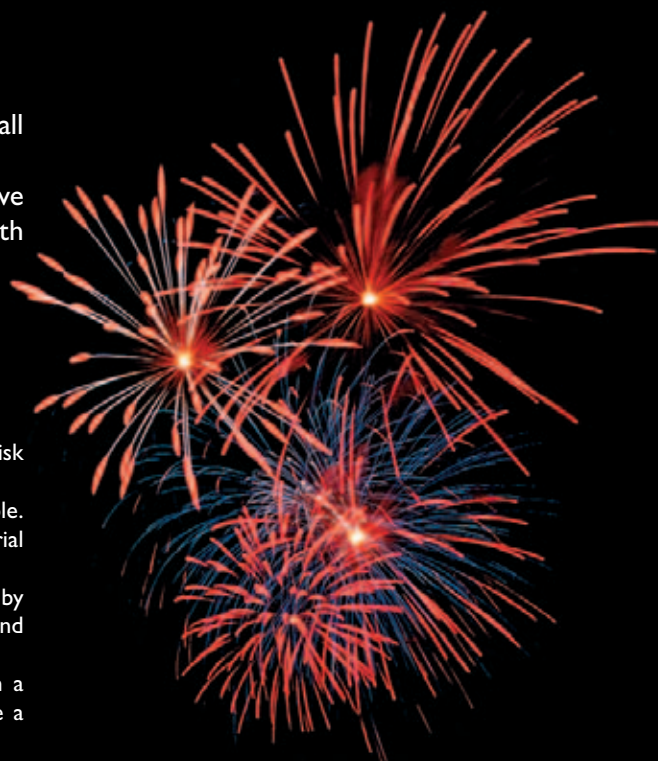

Displays generally start with an impressive opening flourish, followed by intriguing and exotic effects building in a series of waves to thrill, enthrall and captivate.

As the display reaches a breathtaking climax, the finale is marked with a stunning lift of glittering shells rising in a wide fan and breaking to give a spectacular conclusion to a memorable display.

Below is a list of our superb range of professional wedding package displays.

|          |                |                |
|----------|----------------|----------------|
| Crystal  | £795 inc. vat  | 5 – 6 minutes  |
| Silver   | £995 inc. vat  | 6 – 7 minutes  |
| Gold     | £1195 inc. vat | 7 – 8 minutes  |
| Platinum | £1395 inc. vat | 8 – 9 minutes  |
| Diamond  | £1595 inc. vat | 9 – 10 minutes |

For larger budgets please contact our office and we will be happy to discuss your specific requirements, as there are literally no limits to the thrills that Skyburst can provide.

## QUIET DISPLAYS (LOW NOISE)

If you have a noise sensitive venue, all of the above packages can be designed using quieter material.

Through liaison with both client and venue, Skyburst will provide the perfect display for your special occasion.
